

Solo Pit Rows on Sports Field

Version 03 :2 November 2023

- 1 Yellow are the pre-ordered powered pit sites and tents. 3m x 3m with a 2.5m space in front.
- 2 Grey are a 4m x 4m site, with 1.5 space in front for riders with their own tent. Your tent and guy ropes must fit within the 4m x 4m area.
- 3 As long as it not offensive and does not conflict with the event sponsors, you can have your own advertising banners and flags within your 4x4 area but you cannot have them anywhere else in the UNE grounds and on course.
- 4 Helpers can only provide assistance to their riders in their pit site. They cannot run along side their rider in the pit area.
- 5 The pit area also includes riders who are pitting from a caravan in the 2 designated van site pit areas and "Footrot Flats".
- 6 If you want to have your own (preferably silenced) generator, you **must** be in pit row E with the generator behind your tent.
- 7 No fires other than gas heaters or BBQ. Adult must be present when they are on. No "hot coal" BBQs.
- 8 No liquid fuel heaters.
